Fruit mills

RM1,5 RM2,2 RM5,5

Powerful in every size

RM1,5—Base model

Centrifugal mill with exchangeable stainless steel screens for setting the grinding fineness. Ideal for mashing for distilleries. Suitable for pomaceous fruit, stone fruit and berries.

Suitable for producing cold-pressed fruit and vegetable juices.

Washing Milling

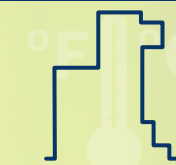

RM series

Pressing

100/180P2
EBP series, 60K, 100K

Pasteurising

PA series

Plastic hopper

Rubber seal

Stainless steel mill and drain

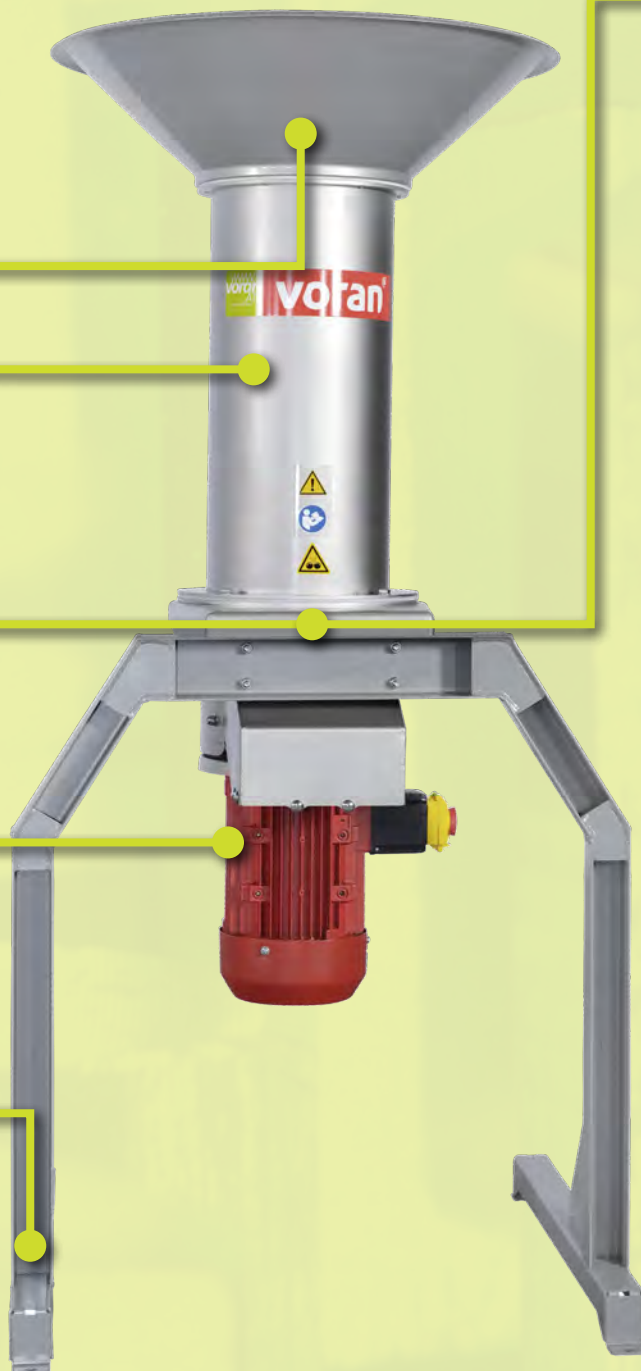

Sturdy mill drive unit

Solid steel profile frame for
added stability (optional)

RM2,2—Compact and efficient

Centrifugal mill with exchangeable stainless steel screens for setting the grinding fineness. Ideal for mashing for distilleries. Suitable for pomaceous fruit, stone fruit and berries. The centrifugal mills RM2,2 and RM5,5 can also be used for processing quinces.

Suitable for producing cold-pressed fruit and vegetable juices.

Achieve more with voran®

We recommend our combined WALC40/WAR65 and SA200 for higher performance in automated processes.

In addition to this, we also offer universal crushers for processing foods such as bread residues, grains or nuts.

Experience meets innovation

For decades, voran® Holding has stood for quality, dynamics and professionalism in the food processing sector. As a financially stable mid-sized company, we currently employ around 160 workers in Pichl bei Wels—in the heart of Austria.

RM5,5—The universal device

Centrifugal mills with replaceable screens. This makes it possible to achieve any desired mash fineness—ideal for the mashing for distilleries. The choice of the most diverse crushing tools and grinding screen enables this mill to also be used for the production of all kinds of fruit and vegetable juices.

Suitable for producing cold-pressed fruit and vegetable juices.

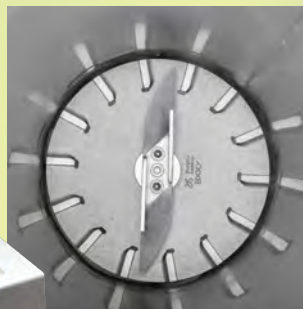

Options

- Different screens
- Short rotor
- 60-mm foot extension for mash trough
- Corresponding mash troughs available in the sizes 200l (image) and 300l

Easy cleaning due to tiltable drain

Exchangeable screen without tools

Different screens can be used for different fruits. For example cutting screens and slotted screen each in different sizes for different fruit.

Sturdy mill drive unit

Rollers for easy movement
